Gurnee, IL 60031

Chicago, April 15, 2011, NASA Midwest, Inc.

NASA Midwest welcomes Red Mist Automotive as our newest Tech Shop. Located in Gilberts IL, Red Mist Automotive provides HPDE and Time Trial inspections and Competition annual inspections/log books issuance.

Red Mist Automotive was formed in early 2010; the owner, Mike Piecko Jr. has been working on cars and hot rodding anything he could get his hands on since age 13. As well as being a successful NASA racer Mike and Red Mist Auto offer performance parts, service, installation, tuning and fabrication. They also can perform dyno tuning, paint and body work and complete project management.

Mike Piecko Jr., owner of Red Mist Automotive said, "I have been wanting to become a NASA Tech Shop since opening in February of 2010. I am very happy to have this opportunity to serve NASA drivers in Illinois and the Midwest Region. We are excited to help continue NASA's growth."

"I am excited for Mike to finally step out on his own with Red Mist Automotive as a full time endeavor. With his can do attitude and enthusiasm for racing and motorsports he will be a welcome addition to the NASA Tech Shop team", said Bryan Cohn, Director of Competition, NASA Midwest, Inc.

Dave Royce, Region Director of NASA Midwest, Inc said, "It's great to have Red Mist Automotive added to the growing list of NASA Tech Shops".
